#### **OPA 2015 Final Legislative Report**

By Robin Henderson, PsyD, OPA Legislative Committee Chair and Lara Smith, OPA Lobbyist

The 2015 Legislative Session proved to be a fairly successful one for the OPA. OPA weighed in on many bills and played a major role in a few significant bills. Here are highlights of some of the key bills OPA had impact on this session.

**SB 832** - This bill was brought by OPA's Legislative Chair, Dr. Robin Henderson. Despite many hurdles and tough negotiations with multiple parties the bill passed with flying colors. This bill sets the path for the Oregon Health Authority to integrate behavioral health services and physical health services in patient centered primary homes and behavioral health homes. This means that psychologists for the first time will be able to work and have their services reimbursed by Medicaid in primary care homes. The bill is already in rule-making through the Person Centered Primary Care Home Standards Advisory Committee, and OPA has two members sitting on this committee.

**HB 2044** - This was a bill that was once again brought by Walden University and would weaken the licensing standards for psychologists in Oregon. The OPA strongly opposed this bill as well as the bills brought by this organization in the past. We met early in the Session with members of the House Higher Education Committee where the bill was assigned and explained our concerns. The bill was never scheduled for a hearing. However, the proponents tried to amend SB 418 with their language on the Senate side. The amendment had a brief hearing but was not adopted. OPA has worked with the APA to provide language that would allow Walden University graduates to be licensed in Oregon, but Walden has not been interested in pursuing these options at this time.

**HB 2307** – This bill prohibits mental health providers from practicing conversion therapy on minors. Basic Rights Oregon introduced this bill and consulted with the OPA many months before the Session started. Dr. Brad Larsen-Sanchez, an OPA Diversity Committee member, took the lead on this subject and spent many hours on background work, and testified in support on behalf of the OPA. The bill passed and received national attention.

**HB 3427** – Originally this bill would have prohibited insurers from reducing reimbursement rates by more than 5% in 2 years and specified the amount of reimbursement to be paid to mental health providers that pegged to the reimbursement of psychiatrists. This bill was introduced by the Oregon Independent Mental Health Practitioners. The OPA Legislative Committee had many conversations regarding this and ultimately found it to be very problematic as written. Instead of opposing we suggested to the proponents that the bill be amended to create a task force on mental health care reimbursement. All of the mental health provider associations agreed to this approach. The bill was amended

with this language and sent to Ways & Means for funding. Despite heavy lobbying efforts on behalf of all of the associations the bill failed due to lack of funding. The OPA legislative committee will continue to work with the other associations on this difficult issue.

**SB 696** – This bill modifies the statutes relating to the Behavior Analysis Regulatory Board within the Health Licensing Office of the Oregon Health Authority. The bill defines applied behavior analysis, includes criteria for licensing, and increases the membership of the Board from seven members to nine. The bill also grandfathers in those individuals that were already practicing behavior analysis in 2013, and does not require a license of those individuals until July 1, 2018. OPA's Dr. Carol Markovics spent much time and efforts ensuring that licensed psychologists did not have to obtain the additional certificate to practice this therapy.

You can obtain a full list of the bills OPA followed in this session at <u>www.opa.org</u>. You must be logged in as a member to access the report. The report can be found under the Committee menu, then Legislative Committee, then the blue button that says Legislative Session Reports.
